GRAZIANO

L'UTILIZZO DELL'ACCIAIO E DEL LEGNO PER UN BASSO IMPATTO AMBIENTALE.

Tutti i nostri prodotti sono riciclabili al 100%. Pensando al futuro è per noi fondamentale immettere sul mercato prodotti che un domani possano essere trattati, riciclati e riutilizzati, così come avviene per tutto il materiale di scarto delle nostre lavorazioni.

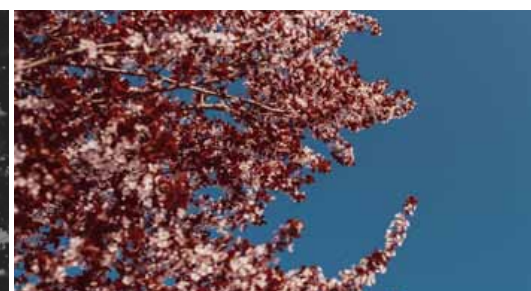

Per noi la sostenibilità ambientale e il benessere del pianeta sono la priorità.

THE USE OF STEEL AND WOOD FOR A LOW ENVIRONMENTAL IMPACT.

All our products are 100% recyclable. Thinking about the future it's essential for us to put on the market products that tomorrow can be treated recycled and reused, as is the case for all the waste material from our processes.

For us, environmental sustainability and the well-being of the planet are the priority.

GRAZIANO

Abbiamo sfruttato la nostra esperienza nella lavorazione dell'acciaio inox per creare una nuova linea di prodotti per l'ambiente bagno, con lo stile che ci caratterizza, lo stile dei nostri radiatori di design.

Implementando linee di produzione e acquisendo nuovi macchinari siamo riusciti a produrre una gamma di mobili bagno in legno e acciaio inox, piani e lavabi in acciaio inox e in pietra acrilica dal forte valore estetico unendo bellezza, unicità e praticità.

We have exploited and optimized our experience in the processing stainless steel and stone, that characterize our design radiators, to create a new line of bathroom products in the style that characterizes us.

By implementing production lines and acquiring new machinery we have succeeded in producing a range of stainless steel and acrylic stone washbasins, with a strong aesthetic value, combining beauty, uniqueness and practicality.
